**English**

**Controls**

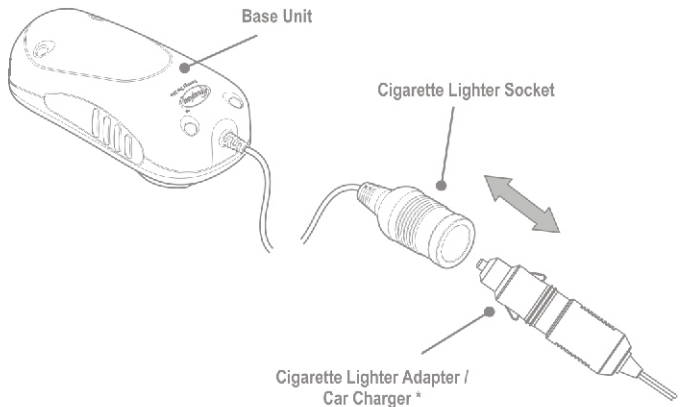

1. Cigarette Lighter Socket
2. Optimum Self-Charge Indicator
3. Winder Handle

Congratulations on purchasing the Freeplay Eco-Charge FreeCharge 12V

Please read these operating instructions carefully before using your FreeCharge 12V and retain them for easy reference. Record the serial number, to be quoted when dealing with Freeplay or a recognised Freeplay distributor regarding this product:

Serial number: \_\_\_\_\_

\* NOT SUPPLIED.

**FEATURES**

- Freeplay direct charge generator
- Recharge capability using applicable cigarette lighter adapter
- LED optimum wind level indicator for ease of use
- Generic cigarette lighter socket interface
- Instant power for cellphones and personal electronic devices
- Regulated, clean 12V power supply
- Non damaging to phones
- No degradable components

**PRECAUTIONS**

- When connected to your mobile phone, the FreeCharge 12V may affect mobile phone reception if cranked while placing or receiving a call.
- The charging performance of the FreeCharge 12V may be affected by temperatures below 0°C (60°F) or above 40°C (100°F).
- When cleaning, do not use abrasives or chemicals. Use a damp cloth with mild detergents.
- Do not immerse this product in water.

**OPERATION**

- To charge the phone or other device, use the applicable cigarette lighter adapter (car charger) and insert into the cigarette lighter socket on FreeCharge 12V base unit.
- Flip out the handle and wind clockwise or anticlockwise.
- When the optimum wind effort is achieved (120 rpm-130 rpm) the green optimum self-charge indicator LED will illuminate to indicate charging. It may take up to 5 seconds for the phone to lock onto the incoming charge.
- Talk and standby times provided by the FreeCharge 12V are dependent on the duration of self-charge effort, and the type of mobile phone and cigarette lighter adapter used.
- Performance will vary from user to user - predictable results are identified through experimentation and practice. The longer you wind, the more energy is transferred to the phone.

**SPECIFICATIONS**

**Power Source:**  
 Internal AC alternator driven by crank handle via a transmission

**Performance:**  
 Talk time: 60-second wind 2-4 minutes  
 Talk and standby times provided by Freecharge 12V are dependent on the duration of self-charge effort and the type of mobile phone used and cigarette lighter adapter.

**Dimensions:**  
**Freecharge 12V Base Unit:**
